Issue #1 - September 2022

## ROADWAY CONCEPTUAL ANALYSIS PUBLIC MEETING

Orange County is conducting a Roadway Conceptual Analysis (RCA) Study for the planned widening of Chuluota Road from Colonial Drive (State Road 50) to Lake Pickett Road. The planned improvement would create a four-lane divided roadway within the project limits.

The RCA Study involves significant data collection, including current and future traffic volumes, current and future land use along the corridor, and right of way needs. The study also involves thorough environmental analysis to evaluate potential impacts to protected and endangered species, wetlands, or other natural resources.

The concept plan would provide four 11-foot-wide travel lanes separated by a 22-foot-wide raised median. The improved corridor would also have a 10-foot-wide shared-use path on one side of the road and a 6-foot-wide sidewalk on the other. The sidewalk and multi-use path would be separated by 4-foot-wide grassed buffers. The project would accommodate the future East Orange Trail on the east side of the road north of The Preserve at Cypress Lakes.

Orange County welcomes public input and invites the community to learn more at a public meeting on **Tuesday, September 20, 2022, at East River High School Cafeteria, 650 E. River Falcons Way, Orlando FL 32833**. An open house will begin at 5:30 p.m., followed by a presentation at 6 p.m. Orange County will review all input and then provide a recommendation to the Orange County Board of County Commissioners about whether to move forward with the project.
